

The Kempe Center is an incredible place to invest in a child's future.

For more than 40 years, The Kempe Center has been recognized as the world leader in preventing and treating child abuse and neglect. Our innovative programs treat children from infancy to 18 years, train medical professionals, work with families and caregivers, and conduct research to find new treatment methods to help children. We combine medical treatment, education and prevention programs with world-class scientific research to help kids and families, and to find more ways to stop the devastating consequences of abuse.

Over the years, many people have passionately supported The Kempe Foundation in its mission to raise funds and awareness for The Kempe Center. Their support has allowed the Center to give thousands of children a voice and helped to transform these young innocent lives.

As a member of the Kempe Society, there are several ways you can make a difference by incorporating The Kempe Foundation into your will or estate planning, and many of these options can provide you with immediate or future tax advantages.
