The Kempe Foundation - Giving Hope to Children

Nearly 800,000 children are reported as having been abused or neglected in this country each year, including 11,000 in Colorado alone. But child abuse is not a hopeless cause. We see success stories every day. These children need superheroes. Superheroes like you.

Kempe treats abused children, trains professionals, and conducts research to ensure a healthy and hopeful future for these innocent victims. Every child seen at The Kempe Center is in the hands of the nation's leading experts on child abuse.

Support the place the rest of the world is looking to for answers. You have the superhuman power to stop child abuse.
